L O N D O N,

TRANSLATION of a paragraph of a letter from Lisbon, dated March 5, 1767.—“I informed you some time ago of the departure of the French Envoy, Monf. de St. Prie, at the instigation of our Prime Minister; I must now acquaint you that the Dutch Resident is preparing to return to Holland for a like motive. You will perhaps say that the Conde is no more a friend to these nations than to England, and I agree with you; but still you must allow that human nature is too liable to be imposed on by whatever promises advantage, not to listen to what is thought to have that tendency. All past administrations in England, with regard to Portugal, have always acted upon like principles; and they have overlooked the lois of what has been taken from them, in hopes of preserving what remained; yet have still continued to perform all that was demanded of them, from a fear of losing the little left. The Conde, therefore, still thinks himself secure from any hostile acts, and laughs at all menaces, not from a thought of being able to make any resistance, but from a persuasion that none will be attempted for the present: Yet as that security must end with the advantages of trade, which he is determined to destroy, he finds it necessary to prepare work for them elsewhere, to the end that they may then be employed in composing the broils and disturbances, which he is at present raising in all the Courts of Europe.”

NEW-YORK, JUNE 4.
At the Meeting of our Assembly, on Tuesday last
Week, His Excellency Sir HENRY MOORE,
BARONET, opened the Session with the following
S P E E C H.

HIS EXCELLENCY
Sir HENRY MOORE, Bart.

Captain General and Governor in Chief, in and
over the Province of New-York; and the Terri-
tories depending thereon in America, Chancellor,
and Vice Admiral of the same:

To the COUNCIL, and GENERAL ASSEMBLY
of the said Province.

Gentlemen of the Council, and Gentlemen of the
General Assembly,

THE Difficulties under which
this Province has laboured
in respect to its Eastern Boun-
daries, and the Differences
in which it has been engaged
in Consequence thereof with
the Province of the Massa-
chusetts-Bay, having been
laid before the King; I am
directed by His Majesty's principal Secretary of
State to recommend to you, that a speedy and ami-
cable Adjustment of these Disputes may take Place,
and the most effectual Methods pursued for settling
every Difference relative to the Boundaries of the
respective Colonies, by Commissioners appointed from
each of them for that Purpose.

It is a Concern of so public a Nature, I flatter my-
self that nothing will be neglected by you which
can tend to the bringing this Affair to a happy
Conclusion; and that you will proceed without De-
lay to the Nomination of Commissioners on the Part
of this Government, whose Knowledge and Abili-
ties may recommend them as proper Arbitrators in
a Case of such Importance, and whose Moderation
may give them such Weight among those appointed
to act with them, that from their Example no Means
may be left untried for surmounting any Difficulties
which may occasionally arise.

THE Preservation of the public Tranquility, and
the Protection of private Property, are so far the
Objects of this Negotiation, as to demand your
most serious Attention; a generous Manner of act-
ing together with proper Concessions made on both
Sides, cannot fail of obtaining the desired Success
on this Occasion, and rendering your Endeavours
highly acceptable to both Provinces, as all Cause
of future Disunion between them may thereby be
effectually removed.

GENTLEMEN of the General Assembly,

As the Act for providing Fuel, Barracks, &c. for
His Majesty's Troops now quarter'd in this City will
expire in a few Days, I am now to recommend far-
ther Provision for them, and on the Plan prescribed
by the Act of Parliament.—I am fully persuaded
that on a due Consideration, the Impropriety of the
Limitations in the Act of Assembly pass'd last Year
will sufficiently appear; and that this House will
with Cheerfulness provide for the Troops in the
Manner now expected from them, nor suffer either
an ill-timed Parsimony, or injudicious Restriction,
to cast such a Reflection on their Proceedings as can
any Way be construed to represent them as under-
valuing the Favours they have received from the
Crown.

GENTLEMEN of the Council, and GENTLEMEN
of the General Assembly,

THE Inconveniences which must attend a long
Session at this Season of the Year, will naturally
induce you to proceed to Business with Dispatch;
and I shall be happy in having an Opportunity of
shewing my Readiness to join with you in whatever
can promote His Majesty's Service, or contribute to
the Good of the Province.

New-York,
27th May, 1767.

H. Moore.

On Thursday last, arrived the Lord Hyde, Packet
Boat, Capt. Goddard, in 6 Weeks from Falmouth;
from the London Prints by whom, to the 12th of
April, we have the following Advice, viz.

LEGHORN, MARCH 11.

ACCORDING to Advice just received from
Corfica, Paoli has in Readiness a Body of Mal-
contents, to be sent to the Isle of Caprea, in case
Admiral Pinelli should find Means to land there the
Succours sent by the Republic.

Leghorn, March 12. Pascal Paoli keeps a body
of malecontents ready to send to Capraja, in case the
Genoese should be able to throw any succours there-
in.

Genoa, March 14. Letters from Bonifacio im-
port, that the Corsicans were advanced within a
mile of that place, and that from their dispositions
it was thought they were going to Blockade it:
whereupon the Government has resolved to send
thither immediately a galley and two pinks with
troops and provisions.

L O N D O N,

March 28. Advice is said to be received, that a
large number of troops of his Sardinian Majesty
were preparing to embark for the island of Corfica,
when the last letters came from Leghorn.

Some letters from Paris mention, that his Excel-
lency the Earl of Rochfort, had lately presented a
memorial to the court of Versailles; and a report
prevailed there, that it related to the speedy removal
of the auxiliary troops of France from the island of
Corfica.

April 4. We are assured that Commodore Wal-
lace, in the Dolphin man of war, is not only to fur-
ther the discoveries made by Commodore Byron,
but is to continue his course up the South Seas and
the Pacific Ocean, in order to attempt a N. E. pas-
sage by Hudson's Bay. He is not expected to return
till the year 1770.

April 7. In the Hague Gazette we find the
following article from Konigsberg, dated March 16.
"His Prussian Majesty's Minister at Warsaw has
happily finished his negotiation, by a convention, in
virtue of which, whatever his Majesty shall purchase
in Poland for his armies are to be exempt from all
duties whatsoever."

April 9. The Lords of the Admiralty have
been pleased to appoint John Elliot, Esq; to be
Vice-Admiral of the province of West-Florida, in
the room of George Johnstone, Esq;

April 10. We are assured that large Commis-
sions, have been sent, to the Amount of 9000l. by
some private Families in the City, within this Week
to Dublin, Cork, and Kinsale, for great Quantities
of the best Irish Pork and Butter.

April 11. The Ponsonby, Harvey, from Ma-
ryland, and the Dublin packet, Crawley, from Bos-
ton, with corn, are arrived at Cork.

This week some workmen were engaged for New
York, to be employed in the establishment of a plate
glass manufactory in that city.

It is whispered, that a certain Foreign Minister
has been told his Presence is no farther necessary at
this Court.

Letters from Warsaw assure, that the Bishops of
that Kingdom are assembled to draw up a Memorial,
in Answer to that published by the Empress of Russia,
in Favour of the Dissenters.

A correspondent at Warsaw writes thus: "The
Protestants after having ineffectually tried all the
ways of representation, have at length taken the re-
solution to join the confederacy. They have at their
head some very illustrious Generals; and will be
supported by a respectable army in case of necessity:
but it is hoped that their antagonists will not make
a religious affair of what is merely a matter of State.
There is no design to strike at the Catholic religion,
nor to diminish the lawful rights of its Clergy; but
only to restore an agrieved part of the Polish nation
to the enjoyment of the privileges which they have
always had since the Reformation, and of which they
are unjustly deprived. A corps of 15,000 Rus-
sians under the command of General Soltikow, and
another of equal force under General Soltikow, and
a third of 10,000 troops of the same nation, will serve
to bridle those whomight otherwise, thro' their great
blindness and obstinacy, be guilty of some excesses,
and contribute to put things in Poland on a solid &
stable footing for the preservation of the fundamen-
tal laws of the Republic in general."

The King of Prussia has just issued a fresh Decla-
ration in favour of the Dissidents of Poland signifying
his approbation of the Confederacy formed by them,
and of the powerful protection granted them for that
purpose by the Empress of Russia, with whom he
has hitherto acted, and still continues to act, in con-
cert in every thing relating to the affairs of Poland;
—but, "in order to prevent the fatal consequences
which must result from a long continuance of the
troubles in Poland, and a denial of satisfaction to
the Dissidents, his Prussian Majesty advises the
illustrious Polish nation to assemble in a Dyet ex-
traordinary, to accomplish a general pacification
between all its members; and he flatters himself
that this counsel will be regarded as a fresh proof
of his invariable friendship for the Republic of
Poland, and of the sincere interest which he takes
in its welfare."

A very great Trader of this city, who lately went
off, and is said to have conveyed goods and Effects,
&c. to the amount of 50,000l. on board several ships,
with Intent, as supposed, to defraud several persons,
is arrested, by leave of the French Court, in a town
near Dunkirk, in company with a lady, and put into
prison.

Sherborne, March 23. On Monday last between
nine and ten o'clock in the morning, a most dreadful
fire broke out at Ottery St. Mary, in the county of
Devon, which continued till six in the evening, and
consumed the better part of the houses in the town.
Upwards of fifty dwelling houses, with shops, bake-
houses, and the shambles, are reduced to ashes.—
The wind being very high, it was with the greatest
difficulty prevented from destroying the whole town.

Newcastle, March 24. One William Hodgson,

aged twenty-two, labourer
allum work, fell, during the great snow, from
the top of the cliff at the new Work at lighthouse,
which from top to bottom measures just 155 yards.
The precipice is somewhat slanting for about two-
thirds from the top. He slid down that part of the
rock on his breech with amazing velocity, carrying
down with him a large quantity of snow, which pre-
served him in a great measure; and being thrown
with great vehemency from a projected crag, which
turned him heels over head, fell down perpendicu-
lar upwards of fifty yards into a snow drift at the
foot of the cliff, where he lay above half an hour be-
fore his companions could get to him to take him up;
and indeed they were sometime in suspense whether
they should go to him or to the director of the work,
in order to have the coroner sent for, because they
never expected to find him alive. His right thigh
was very much broke; the left knee, and the inward
extremity of the right collar-bone, were dislocated.
He was insensible for some days, and a month elapsed
before he recovered the right use of his reason. His
left hand is paralytick; but there is at present hopes
of his recovering the use of it in a short time. It is
remarkable, that he was so far from having any pre-
sence of mind during the fall, that he has not the
least remembrance of it, and, on growing sensible,
would not for some time believe that he had fallen
down the cliff, though he remembers being at the top
of it just before he slipped down; but he knows no more
of what followed than if he had not existed, nor has any
idea of the space of time during which he was insen-
sible.

Edinburgh, March 10. On Saturday last Richard
Stockton, Esq; an eminent American Lawyer, who
has been in this City for about a fortnight past, set
out on his return to London.—The Day before he
left us, the Lord Provost, sent him with several of his
Friends, an Invitation to a public Dinner; after
which the Dean of Guild, by his Lordship's Com-
mand, presented him with the Freedom of the City.
On which Occasion Mr. Stockton, made the following
Address.—"My Lord Provost, The unexpected
Honour which your Lordship, as the Head of the
Magistracy and Town Council, of this ancient and
respectable City, has been pleased to bestow upon
me, demands my most grateful Acknowledgments;
and altho' I cannot flatter myself with having re-
tained this distinction; yet I shall always retain the
highest Sense of your Lordship's Favour: and beg
Leave to assure your Lordship of the great Esteem
I have for the Lord Provost, Magistracy, and Town
Council of Edinburgh, and of my constant Wishes
for the Prosperity of this Metropolis of N. Britain."

K I N G S T O N (in Jamaica) April 18.

Wednesday afternoon arrived at Port-Royal, in 11
Days Passage, an open Express-Boat, from the Bay
of Honduras, with an Account that the Spaniards
have revolted there; seized several Negroes, the
Properties of the Inhabitants, as also murdered some
of the Bay Men.

N E W - Y O R K, June 4.

The English Prints received by the Packet up to
the 12th of April, are barren, and contain little or
nothing relative to American Affairs; but by some
private Letters we learn, That a late Act passed in
Boston, called the Indemnity Act, has given much
Disgust to the Inhabitants of Great Britain, and to
the House of Lords in particular; who, we are told,
immediately voted that every Minute relative to that
Matter should be ordered to be erased out of the
Journal of the Proceedings of the House of Assem-
bly of the Province of Massachusetts-Bay: That
little or nothing had been done by Parliament, with
Regard to America, but that the 24th of April
was fixed upon to begin with our Affairs; and that
it was generally supposed we should have Permission
granted for the emitting Paper Money as a legal
Tender: That three Ships of 74 Guns, were get-
ting ready for America, and were to take on board
the 16th (Gisborne's), and the 26th (Scott's), Re-
giments for New-York; the 18th, (Sir John Ser-
bright's), for Philadelphia; and the 10th, (Sand-
ford's, late Pool's), for Quebec; and that three Re-
giments now in America would be sent home in the
same Ships.

Wednesday last Week, arrived here Capt. Webb,
in 23 Days from Pensacola; by him and private
Letters from thence, we learn, that General Hal-
deman was very busily employed in new-modelling,
enlarging and repairing the Fortifications of that
Place, and that all the Troops in the Garrison were
daily employed for that Purpose, that Provisions
were very dear there, Flour being 10 Dollars per
Barrel, Turkeys 24s. each, Geese 16s. and common
Dunghill Fowls one Dollar a Piece. A few Days
since Capt. Webb spoke with a Brig from the Bay
for Boston, and a Sloop from Nevis to Philadelphia,
but did not learn the Master's Name's.

Thursday also arrived Captain Lawrence, in a
Sloop in 42 Days from the Bay of Honduras, but
brings no Account of any Mischief being lately done
there by the Spaniards, as mentioned under the Ja-
maica Head: He left 55 sail of Vessels at that Place,

The Public are desired to take Notice, that there are now passing amongst us, Counterfeit Dol- lars, dated 1747; they are rather larger than the good Ones, and may be easily distinguished by the Sound.

A few Days ago, the extraordinary Size of a Calf of 3 Days old, belonging to Mr. Joseph Van Martyr, of Middletown, in New-Jersey, induced him to weight it, when he found the weight to be 98 lb.

On Monday last arrived the Snow Jersey, Cap- tain Lawrence, in eight Weeks from Bristol.—But brings no Papers nor News.

THIS is to inform the PUBLIC,

That I the Subscriber hereof, William Bentley, of Beckman's Precinct, in Dutchess-County, was sent for to the House of one Thomas Wallworth, of said Place, the last of February, or the first of March, 1763; where meeting one Timothy Hollester, of Connecticut, who offered to dispose of several Rights of Land, in which was generally called the Suquehannah Purchase:—And I questioning his Right or Au- thority of the said Rights, and told him I had rather have a Right in the Delaware Purchase; but questioned, whether he the said Hollester, had any Authority to dispose of any there: Whereupon the said Thomas Wallworth, came into the Room, and certified that the said Hollester, had good Right to dis- pose of such Rights, and that said Wallworth, had been at the laying out of a Township on the said Rights then offered for Sale; and that there was no dispute of the Delaware; upon which Consideration I agreed to have a Right, and gave my Note of £. 13-0-0 for the Payment thereof: And whereas I find the whole to be a piece of Deceit and Villany, and can have no Certainty for the said Rights.—For which Reason I don't intend to pay the aforesaid £. 13-0-0, or any Part thereof, and also am well informed, that the aforesaid Note was lodged in the Hands of the said Thomas Wallworth, and as he has offered the same for Payment: Therefore I do hereby notify the Public, not to trade for, nor accept the said Note as Payment, as I shall utterly refuse the Payment thereof.

WILLIAM BENTLEY.

The above being done in the Presence of John Spencer, and Jedediah Jenkins.

Beckman's-Precinct, February 12, 1765. DUECHESS-County, n: HEN the within named John Spencer, and Jedediah Jenkins, personally appeared before me William Humfrey, Esq; one of his Majesty's Justices of the Peace for said County; and doth acknowledge that they were per- sonally present, when the above-mentioned Contract was made, and saw the said Note given, and that they heard the within named Thomas Wallworth, affirm that there was no dispute about the Title of the Rights of the Lots laid out in that Right, called Dela- ware first Purchase.

Acknowledged before me, the Date above-said, (17477) WILLIAM HUMFREY.

New-York, the first Day of June, 1767.

Mr. HOLT, Please to give the following a Place in your next Thursday's Paper.

Bergen Commons, New-Jersey.

THESE Lands have been in Dispute a great many Years, and much Money has been expended by the Parties.— The Legislature of this Province, at last, appointed seven Gentlemen as Commissioners, finally to determine the Property of the Commons, six of them acted, and their general Plan was, to allow a proportionate Share of Commons to such as were in Possession of the patented Lands, unless the Conveyances mentioned a Reservation.—I am informed they allowed a Partition of Commons to some in Bergen, who could produce no other Title for their patented Lots, than a Record in the Town Book of such Lots being sold at Ven- due, without any mention of Commons:—And this Conduct seems to be agreeable to the Spirit of the Charter.—They found Sekakus within the Limits of the Charter, and ap- pointed a Part of the Commons to Sekakus.—Mr. Bayard now claiming the Commons of Sekakus; some Pains were taken to prove to the Commissioners the Impropriety of this Claim; and five of Six voted against his Claim,—the other (tho' he made use of Arguments against it) did not give his Voice.—There was no Occasion for it, as a Majority deter- mined the Matter.

Mr. Bayard still continues his Claim, ridiculous as it is,— but I cannot see any Propriety in his endeavouring to ob- struct the finally Settling the other Claim.—Therefore hope the Legislature will, for the Ease and Benefit of the true Own- ers, make some Provision at their next Session, for the fix- ing of Property,—and not Regard the Claim of him who ought to have been convinced of the Impropriety of it long ago.—But even supposing (tho' far from granting) his Claim to be founded on the Appearance of Justice, can any reasonable Man believe, that if Mr. Bayard supposed himself in the Right he would want the Decision put off to some future Day?

To convince one of the Unjustness of his Claim to a Thing, is not always sufficient to cause him to give it up.

The bare Power of keeping People out of the Possession of their Property has sometimes been a sufficient Reason for the doing it. JOS. SACKETT, Jun.

KING'S COLLEGE NEW-YORK.

NOTICE is hereby given, That the Examina- tion of Candidates for Admission into this College, will be attended, on the 22d, 23d. and 24th Days of this Instant, at the President's Cham- bers. June 4th, 1767. 7477

IT is desired as a particular Favour, that the Spectators may be so obliging as not to go within the Line: or, any way incommode the Order of the FIRE-WORK, on this His MAJESTY'S BIRTH-DAY.

THE drawing of the St. Peter's, &c. Church Lottery, began at the Church School-House, on Wednesday the 27th day ult. where it will continue drawing from day to day (Sundays excepted) until the same be finished. The Public is sufficiently acquainted how advantageous this Lottery is to the adventurers, by the numberless schemes which have been published, it will suffice to observe, that there are not two blanks to a prize, notwithstanding the many high prizes contained in it. The managers have thought it prudent to begin the drawing as slow as possible, in order that those who are not provided with tickets, may apply in time to them, or to Messrs. Hall and Bradford, or the Printer of the Chronicle before they are all disposed of, as there is a great demand for them. Philadelphia, June 1, 1767.

New-Windfor, May 24th, 1767.

To be sold at public Vendue, the First Day of July next, on the Premises:

ONE Hundred Acres of Land, lying on the West-Side of Hudson's River, near New-Windfor, in Ulster-County; which Land is divided into six Lots, viz. Lot No. 1, contain- ing about 27 Acres, on which stands a fine new Grist-Mill, on the noted good Stream commonly known by the Name of Quataick, (alias) Chambers's-Creek: This Mill is supposed to be as well calculated for the Business of the New-York Market, as any in the Province, having the great Advantage of a fine extensive Wheat Country, lying back of it, and being situated so that the Flour can be transported from the Door in a Scow, and loaded on board of a Sloop, (which can come within a very small Distance of the Mill:) Therefore no Ex- pense will accrue on Account of Land-Carriage; consequently the Purchaser can advance a higher Price for Wheat, than possibly can be given at Mills whose Situation lies back from the River: The good Effect of which will be, that he can command as much of that Commodity as he may think proper. The House is large and commodious, being 42 Feet in Length, and 28 in Breadth, two Stories and a Half high, one Pair of Stones six't, and in good Order, with proper Conveniency to fix another Pair. Lots No. 2 and 3, each containing about 13 Acres, Lot No. 4, contains about 18, Lot No. 5, contains about 14, and Lot No. 6, contains about 9 Acres.—The Whole is good Swamp and Up-Land, with fine young thriving Timber on it, and will be sold together, or in separate Parcels, as above mentioned, as may best suit the Purchaser.—The Conditions will be made known at the Time of Sale: An indisputable Title will be given by the Subscriber, living near the Premises. GEORGE HARRIS.

PURSUANT to an order, made by the worshipful George Brewerton, and Benjamin Blagge, Esq; two of the alder- men; and two of the judges of the mayors court of the said city, upon the petition of Samuel Downing, late of West- chester county, as present of the city of New-York, Taylor, an insolvent debtor, and his petitioning creditors, notice is hereby given, by the petitioners to all the creditors of the said Samuel Downing, to shew cause, before the said judges (if any they have) on Monday the 15th day of June next, at 10 o'clock, in the forenoon of that day, at the house of the said George Brewerton, Esquire, in the north ward of the said city, why an assignment of the estate of the said Samuel Downing, should not be made to Jordan Downing, of Morrisania, Yeoman, for the benefit of all the creditors of the said Samuel Downing, in proportion to their respective demands against him, pur- suant to the prayer of the said petition, and the said Samuel Downing, be thereupon discharged, pursuant to the laws of this colony of New-York, in cases of insolvent debtors, made and provided; the said petitioners having in all things com- plied with directions of the said laws. Dated this 23d Day of May, 1767. 7476.

[THURSDAY, JUNE 4, 1767.]

[NUMB. 1274.]

N A P L E S, February 24.

AN Earthquake happened here this morning, which threw down several houses, and damaged some others, it is supposed to have been occasioned by a sudden eruption of Mount Vesuvius. The whole city is in the utmost consternation; the diversions of the Carnival are suspended; and public prayers are offered up to implore the assistance of Heaven.

Civita Vecchia, March 1. The Corsicans intend to continue the war with vigour against the Genoese, as soon as the French troops are withdrawn; and Councils are frequently held at Genoa, to consult upon the proper measures to be taken to resist the force of General Paoli, after the departure of the French.

Leghorn, Feb. 28. A letter has been received here from a Corsican at Micinaggio, of which the following is an extract.

"Our commander, after having taken all necessary measures for striking a blow, caused to sail from this port, in the night between the 16th and 17th, fourteen vessels, feluccas, and armed boats, having on board 300 men, together with ammunition and provision. Two hours before day our people made a successful landing on the island, of Capraja, which is situated over against the coast of Tuscany, and belonged to the Genoese: And about an hour after the sun was up, found themselves masters of almost all the coasts of the island, having met with no resistance from the inhabitants, fifty of whom joined the Corsicans. In the evening of the same day our men obtained possession of the tower of Barbigia; in the morning of the 19th they took that of Genobito, and at seven in the evening entered the tower of the port; so that the Genoese have only one fortress remaining, situated on an eminence, but ill provided with necessaries for a defence. They have indeed 14 pieces of cannon, 36, 27, and 15 pounders; but, on the other hand, the garrison consists only of 36 soldiers, who have no provision, except 23 sacks of flour, and a little wood; whereas the besiegers have every thing in plenty. It is therefore supposed we shall soon be masters of the place, especially as the enemy's artillery is ill managed. We found in the two towers 4 pieces of brass cannon, a 14, 12, an 8, and a 6 pounder."

Genoa, March 7. The Republic having been informed that 600 of the Corsican malecontents had landed on the island of Capraja, immediately dispatched thither a pink, and two large feluccas, with troops and provisions; but these vessels not being able to approach the port, at the entrance of which the malecontents had placed several pieces of ordnance, the government have since sent out, under the command of the Senator Pinelli, three galleys, four pinks, and five feluccas. It is probable that the Corsicans must retire, unless they very soon receive assistance.

Warsaw, March 14. The day before yesterday, at three in the morning, a fire broke out in a Secretary's apartment in the King's palace, and in two hours time destroyed one entire wing, in which, amongst other people, were lodged a part of his Majesty's own family. No lives are as yet known to be lost by this accident, but the damage is very considerable; and it is said, that papers of great importance to the Republic are destroyed.

L O N D O N, March 24.

Some letters from Leghorn mention, that his Sardinian Majesty had offered his mediation to reconcile the present differences between the Republic of Genoa and the Corsicans, by a partition treaty, in which both powers should be considered as free and independent of each other.

March 26. We hear a certain great Person, in a very few days, will make known the long expected plan of operations for this year, which for the boldness and extensiveness of its scope, we are informed, will alarm and astonish all Europe.

We are told that a great man was heard to say last Sunday at St. James's, that he would rather be a General of the Corsicans, than the first Potentate in Europe.

March 28. Wednesday died at his house near St. James's, the Hon. Philip Ludwell, Esq; one of his Majesty's Council of the province of Virginia.

Newcastle, Feb. 21. Yesterday Se'ennight a most shocking Murder was perpetrated at Harrington, near Lempton, by a Woman on her Husband, as he was sitting by his Fire side, she having perceived him sleeping, came behind him with an Axe, and struck him on one Side of his Neck with all her Force, and cut through his Gullet: Upon which he immediately started up, with all the Horror and Pangs of a dying Person; but she repeated the Blow, and clove him on one Side of his Head, which brought him to the Ground, and he expired directly.—The Woman is since committed to Durham Gaol; but is said to have been out of her Reason some Time.

The following is a Description of a wonderful large Ox, that was shewn in Gloucester, to Two Thousand People and upwards in three Days:

It resembles an Elephant in the Hind Parts, but much larger; he has been shewn twice before the Royal Family, and has travelled two thousand Miles round; the Property of Anthony Mills, Butcher, who bought the same to be weighed alive, and was weighed at Norwich, April 16, 1765, and weighed then 243 Stone one Pound, 14lb. to the Stone; he was weighed again March 7, 1766, and weighed then 258 Stone nine Pounds, 14lb. to the Stone. He is much admired for his extraordinary Fat and Beauty.

And measures in Length from Nose to Rump 12 Feet and ten Inches; in Girt twelve Feet and a half; and is eighteen hands and a half high; and for which the noted Mr. Cross, who travels with the Lion, bid the Proprietor, when at Birmingham, 180 Guineas.

N. B. He is greatly improved since the Proprietor last weighed him; and is allowed by the London Butchers and Salesmen in Smithfield (who have seen them) to be a much superiour Ox to that now shewn in London, or that lately killed there.

Mr. Waller of Lincolnshire, who bred him has been bid 70 Guineas for the Cow he came of.

On the 30th of January last a Hog Pig, fed at Crew, of the following Weight, was killed by Mr. Meek, Hog-Butcher, at Congleton in Cheshire; one Side weighed 314lb. the Head, Feet, Backbone, Fat, and Hasket, 223lb. in the whole amounting to 850lb.
